

Effective fathering means a generation of kids with happier, healthier futures.

Our school has a Dads Group!

The Fathering Project fosters communities of Dads and father-figures in schools across Australia - all for the benefit of kids.

Our school's Dads Group is a relaxed environment where dads and father-figures can connect with each other and engage positively with their children.

What is The Fathering Project?

The Fathering Project is here to support fathers and father-figures. We remind dads how important they are, and empower them to be the best parents they can be.

Research shows that fathers have a significant impact on academic, social and emotional wellbeing of children - and are a lasting influence into adult life.

Regardless of whether dads and kids live together or apart, studies have shown that children do better in school when their fathers are involved.

Be the best father you can be - learn more about Dads Groups or explore our online information and resources for dads at www.thefatheringproject.org.
